Twelve Years a Slave Solomon Northup 2021-01-01
"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been

kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an

The Return of Ulysses Edith Hall 2012-08-15
Whether they focus on the bewitching song of the Sirens, his cunning escape from the cave of the terrifying one-eyed Cyclops, or the vengeful slaying of the suitors of his beautiful wife Penelope, the stirring adventures of Ulysses/Odysseus are amongst the most durable in human culture. The picaresque return of the wandering pirate-king is

one of the most popular texts of all time, crossing East-West divides and inspiring poets and filmmakers worldwide. But why, over three thousand years, has the Odyssey's appeal proved so remarkably resilient and long lasting? Edith Hall explains the enduring fascination of Homer's epic in terms of its extraordinary susceptibility to adaptation. Not only has the story reflected a myriad of different agendas, but - from the tragedies of classical Athens to modern detective fiction, film, travelogue and opera - it has seemed perhaps uniquely fertile in generating new artistic forms. Cultural texts as diverse as Joyce's *Ulysses*, Suzanne Vega's *Calypso*, Monteverdi's *Il Ritorno d'Ulisse in Patria*, the Coen Brothers' *O Brother Where Art Thou?*, Daniel Vigne's *Le Retour de Martin Guerre*, and Anthony Minghella's *Cold Mountain* all show that Odysseus is truly a versatile hero. His travels across the wine-dark Aegean are

Forensic Detective Robert Mann 2007-01-30 Death. It's not only inevitable and frightening, it's intriguing and fascinating—especially today, when science continues to make ever more stunning advances in the investigation of the oldest and darkest of mysteries. To discover the how and why of death, unearth its roots, and expose the mechanics of its grim handiwork is, at least in some sense, to master it. And in the process, if a criminal can be caught or closure found, so much the better. Enter Robert Mann, forensic anthropologist, deputy scientific director of the U.S. government's Central Identification Laboratory, and, some might say, the

Sherlock Holmes of death detectives. When the dead reveal some of their most sensational, macabre, and poignant tales, more often than not it's Mann who's been listening. Now, in this remarkable casebook, he offers an in-depth behind-the-scenes portrait of his sometimes gruesome, frequently dangerous, and always compelling profession. In cases around the world, Mann has been called upon to unmask killers with nothing but the bones of their victims to guide him, draw out clues that restore identities to the nameless dead, recover remains thought to be hopelessly lost, and piece together the events that can unlock the truth behind the most baffling deaths. The infamous 9/11 terror attacks, which killed thousands; the unplanned killing that inaugurated serial murderer Jeffrey Dahmer's grisly spree; mysterious military fatalities from World War II to the Cold War to Vietnam, including the amazing case of the

Vietnam War's Unknown Soldier—all the fascinating stories are here, along with photos from the author's personal files. Mystery hangings, mass graves, errant body parts, actual skeletons in closets, and a host of homicides steeped in bizarre clues and buried secrets—they're all in a day's work for one dedicated detective whose job begins when a life ends.

Voice Lessons Rob Paulsen 2019-10-08 Rob Paulsen is one of Hollywood's busiest, most talented, and most passionate performers. If you don't know him by name, you will know him by the many characters he has brought to life: Pinky from *Pinky and the Brain*, Yakko from *Animaniacs*, the tough but loveable Raphael from the original animated *Teenage Mutant Ninja Turtles*, and many more. So you can imagine how terrifying it must have been when Rob was diagnosed with throat cancer, putting his entire livelihood in jeopardy and

threatening to rob the world of all his loveable characters that filled our youths and adulthoods with humor and delight. *Voice Lessons* tells the heartwarming and life-affirming story of Rob's experience with an aggressive cancer treatment and recovery regimen, which luckily led to a full recovery. Rob quickly returned to doing what he loves most, but with a much deeper appreciation of what he came so close to losing. His new lease on life inspired him to rededicate himself to his fans, particularly the new friends he made along the way: hundreds of sick children and their families. Rob said it best himself: "I can not only continue to make a living, but make a difference, and I can't wait to use that on the biggest scale that I can."

100 Days of Sunlight Abbie Emmons 2019-08-07 When 16-year-old poetry blogger Tessa Dickinson is involved in a car accident and loses her eyesight for 100 days, she feels like her whole world has

been turned upside-down. Terrified that her vision might never return, Tessa feels like she has nothing left to be happy about. But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs. Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition -- no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt: screaming at him to get out of her house and never come back. But for Weston, it's the most amazing feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again. Tessa spurns Weston's "obnoxious optimism", convinced that he has no idea what she's going through. But Weston knows exactly how she feels and reaches

into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. But he still hasn't told her the truth, and when Tessa's sight returns he'll have to make the hardest decision of his life: vanish from Tessa's world...or overcome his fear of being seen. *100 Days of Sunlight* is a poignant and heartfelt novel by author Abbie Emmons. If you like sweet contemporary romance and strong family themes then you'll love this touching story of hope, healing, and getting back up when life knocks you down.

Destabilizing the Hollywood Musical K. Kessler
2010-10-13 A critical survey of Hollywood film musicals from the 1960s to the present. This book examines how, in the post-studio system era, cultural, industrial and stylistic circumstances

transformed this once happy-go-lucky genre into one both fluid and cynical enough to embrace the likes of Rocky Horror and pave the way for Cannibal! and Moulin Rouge!.

The Real History of the End of the World Sharan Newman 2010-04-06 From the author of *The Real History Behind the Templars--the origins and stories behind end-of-the-world predictions throughout history, from Revelations to 2012*. In entertaining and sharp prose, historian Sharan Newman explores theories of world destruction from ancient times up to the present day- theories which reveal as much about human nature as they do about the predominant historical, scientific, and religious beliefs of the time. Readers will find answers to the following end-of-times questions: ?Did the Mayans really say the world will end in December 2012? ?How have the signs in the New Testament Book of Revelations been interpreted

over the years? ?How did ancient Egyptians, Norse, and Chinese think the world would end? ?When did Nostradamus predict that the last days would come? ?Does the I Ching reference 2012? ?Why didn't the world end in Y2K? ?Are meteors, global warming, super-volcanoes, and the threat of nuclear war signs that the end is near?

Encounter with Tiber Buzz Aldrin 2013-05-28 An Apollo 11 astronaut and the Nebula Award-nominated author of *Directive 51* present a novel that “conveys the wonder and promise of space” (Publishers Weekly). Born the year of the Moon landing, Chris Terence spends his life fighting to return humanity to that pinnacle. An engineering student with dreams of spaceflight, he finds upon graduation that the United States no longer has need for astronauts. Years of bureaucratic meddling have reduced the space program to a shell of itself, and it will take the greatest scientific find

in history to send humanity skyward once more. After years battling budget hawks, Chris finally gets his chance to walk on the Moon. While there, he finds evidence of an ancient alien civilization, the Tiberians, who visited Earth's satellite eight thousand years before. Understanding what happened to those long-forgotten travelers will define the lives of Chris and his son, as they fight against all odds to unlock the secrets of the universe. "The collaboration of the first man to pilot a moon lander (Aldrin) with a major voice in contemporary science fiction (Barnes) has produced a fascinating chronicle of man's first encounter with alien intelligence" (Booklist).

[A Convenient Death](#) Alana Goodman 2020-06-02
Who killed Jeffrey Epstein? Two journalists look for answers. A must-read for fans of the Netflix docuseries *Filthy Rich*. In *A Convenient Death*, investigative reporters Alana Goodman and Daniel Halper search for the truth of what really happened

to Jeffrey Epstein. With access to Epstein's victims and lawyers, to doctors, Wall Street insiders and law enforcement officers, they reveal the dirty secrets and sinister ties that may have driven someone in Epstein's circle to take matters into their own hands. On the morning of August 10, 2019, Epstein, friend and financier to the rich and powerful, was found unresponsive in his prison cell in lower Manhattan, where he awaited his second trial for sexual predation and other crimes. He was rushed to a local hospital and one hour later pronounced dead by suicide. Across the world, a sinister web of powerful billionaires, celebrities, and politicians, including Bill and Hillary Clinton, had reason to sigh with relief at news of Epstein's death. Having flown on his private planes and visited his many homes—the sites of so many illicit activities—they had much to lose if their transgressions were ever exposed. And now,

Epstein was silenced for good. But cracks in the official story soon emerged. And the questions kept coming: · Why did the surveillance cameras in front of Epstein's cell stop working that night? · Why was Epstein's cellmate transferred out and never replaced? · Why was a high-profile prisoner so suddenly taken off suicide watch and left unguarded for eight hours? Was Epstein murdered to protect the powerful people who feared what he might reveal? The American public deserves to know the truth. With this book, they can finally understand the facts and decide for themselves.

A Wind Named Amnesia Hideyuki Kikuchi 2008
The Apocalypse didn't end with a BANG, but with a whimper. Silently, the 'amnesia wind' swept away all of mankind's knowledge. Thousands of years of human civilization vanished overnight as people forgot how to use the tools of modern civilization; who they were, how to speak -

everything! Technology decayed as mankind was reduced to an extremely primitive level. Two years after the devastation, a young man explores a nation reduced to barbarism: America. Miraculously re-educated after the cataclysm, he is accompanied by a young woman - somehow spared the obliterating effects of the amnesia wind. Pursued by a relentless killing machine, they search for those responsible for stealing their memories.

Stories from the Vinyl Cafe Stuart McLean

2009-09-29 Like an old friend who's turned up in town, Stuart McLean returns with "Stories from the Vinyl Cafe," his bestselling collection of tales based on his enormously popular Vinyl Cafe radio program. The collection features Canada's much-loved fictional family: Dave, Morley, Stephanie and Sam. Stories from the Vinyl Cafe also introduces a

host of other wonderfully imagined characters, such as Margaret Dwyer, a suburban housewife who startles herself by shoplifting a pepperoni sausage, and Flora Perriton, who is consumed with thoughts of lost opportunities when an old friend passes away. Then there's Ed, who-overcome by the death of his favourite rock star-embarks on a pilgrimage to New York City to meet the singer's widow. As always, the stories in this rewarding and irreverent collection prove that Stuart McLean is indeed a national treasure.

The Amityville Horror Jay Anson 2019-12-03 “A fascinating and frightening book” (Los Angeles Times)—the bestselling true story about a house possessed by evil spirits, haunted by psychic phenomena almost too terrible to describe. In December 1975, the Lutz family moved into their new home on suburban Long Island. George and Kathleen Lutz knew that, one year earlier, Ronald DeFeo had murdered his parents, brothers, and sisters in the house, but the property—complete with boathouse and swimming pool—and the price had been too good to pass up. Twenty-eight days later, the entire Lutz family fled in terror. This is the spellbinding, shocking true story that gripped the nation about an American dream that turned

into a nightmare beyond imagining—“this book will scare the hell out of you” (Kansas City Star).

Intelligent Projects Using Python Santanu Pattanayak 2019-01-31 Implement machine learning and deep learning methodologies to build smart, cognitive AI projects using Python Key FeaturesA go-to guide to help you master AI algorithms and concepts8 real-world projects tackling different challenges in healthcare, e-commerce, and surveillanceUse TensorFlow, Keras, and other Python libraries to implement smart AI applicationsBook Description This book will be a perfect companion if you want to build insightful projects from leading AI domains using Python. The book covers detailed implementation of projects from all the core disciplines of AI. We start by covering the basics of how to create smart systems using machine learning and deep learning techniques. You will assimilate various neural

network architectures such as CNN, RNN, LSTM, to solve critical new world challenges. You will learn to train a model to detect diabetic retinopathy conditions in the human eye and create an intelligent system for performing a video-to-text translation. You will use the transfer learning technique in the healthcare domain and implement style transfer using GANs. Later you will learn to build AI-based recommendation systems, a mobile app for sentiment analysis and a powerful chatbot for carrying customer services. You will implement AI techniques in the cybersecurity domain to generate Captchas. Later you will train and build autonomous vehicles to self-drive using reinforcement learning. You will be using libraries from the Python ecosystem such as TensorFlow, Keras and more to bring the core aspects of machine learning, deep learning, and AI. By the end of this book, you will be skilled to build your own smart

models for tackling any kind of AI problems without any hassle. What you will learn

- Build an intelligent machine translation system using seq-2-seq neural translation machines
- Create AI applications using GAN and deploy smart mobile apps using TensorFlow
- Translate videos into text using CNN and RNN
- Implement smart AI Chatbots, and integrate and extend them in several domains
- Create smart reinforcement, learning-based applications using Q-Learning
- Break and generate CAPTCHA using Deep Learning and Adversarial Learning

Who this book is for This book is intended for data scientists, machine learning professionals, and deep learning practitioners who are ready to extend their knowledge and potential in AI. If you want to build real-life smart systems to play a crucial role in every complex domain, then this book is what you need. Knowledge of Python programming and a familiarity with basic machine

learning and deep learning concepts are expected to help you get the most out of the book

Real Ultimate Power: The Official Ninja Book

Robert Hamburger 2015-03-20 Dear Stupid Idiots, A lot of you have been saying that I don't know anything about REAL ninjas. But that's a bunch of bull crap! You dummies don't know anything. And maybe YOU should get a life. I bet a lot of you have never even seen a girl naked! You idiots believe that ninjas had some "code of honor." Yeah right! If by "code of honor," you mean "code to flip out and go nuts for absolutely no reason at all even if it means that people might think you are totally insane or sweet," then you are right. But if you mean a "code to be nice and speak nicely while sharing and not cutting off heads," then you're the

biggest idiot ever!!!!!! So if you have any brains, you will shut up and get a life. So go shut up, you stupid idiot. No thank you, Robert Hamburger

wrong again. You'll be surprised at how much you don't know! Check out *The Book of General Ignorance* for more fun entries and complete answers to the following: How long can a chicken live without its head? About two years. What do chameleons do? They don't change color to match the background. Never have; never will. Complete myth. Utter fabrication. Total Lie. They change color as a result of different emotional states. How many legs does a centipede have? Not a hundred. How many toes has a two-toed sloth? It's either six or eight. Who was the first American president? Peyton Randolph. What were George Washington's false teeth made from? Mostly hippopotamus. What was James Bond's favorite drink? Not the vodka martini.

The Book of Iowa Films Marty Knepper 2014-08-04

This is the first comprehensive history of films made in or about Iowa. It reflects some twenty years of collecting, lecturing, and talking with some of Iowa's current generation of independent filmmakers. It covers the span from 1918 to 2013 and gives important background information on dozens of high profile films such as the STATE FAIR films of 1933 and 1945, THE BRIDGES OF MADISON COUNTY, FIELD OF DREAMS, and many others. It is designed as a companion for the State Historical Society's blockbuster "Hollywood in the Heartland" exhibition in Des Moines that is scheduled to run at least through 2016. The book has an interpretive essay covering the entire history as well as paragraph length descriptions of each film. A user-friendly feature is the Index of

Films, which makes it easy to locate discussions of individual films. Marty Knepper is a featured commentator on video screens in the "Hollywood in the Heartland" exhibition.

Ketamine Karl Jansen 2004 "Karl Jansen's book Ketamine, Dreams, and Realities is a goldmine of information on this fascinating substance that combines in a unique way the properties of an anesthetic and a psychedelic. It is clearly written, well researched and documented, and presents a balanced and objective view point. The author's broad perspective that covers all the aspects of Ketamine from pharmacology to its use in raves makes this book interesting for clinicians and researchers, as well as the general public."- Stan Grof, M.D., author of Psychology of the Future: Lessons From Modern Consciousness Research; LSD Psychotherapy "Indispensable reading for those with any interest in ketamine. Entertaining,

thought-provoking, and thorough." - Rick Strassman, M.D., author of DMT: The Spirit Molecule: A Doctor's Revolutionary Research into the Biology of Near-Death and Mystical Experiences "It is an excellent book... a well done comprehensive review of the entire history of ketamine." - Evgeny Krupitsky, M.D., Ph.D. Pioneer researcher into the use of ketamine-assisted psychotherapy in the treatment of alcoholism and heroin addiction.

the larger, louder half of legendary magic duo Penn & Teller, whose spectacularly witty and sharply observant essays in *Every Day Is an Atheist Holiday!* will entertain zealots and skeptics alike. Whether he's contemplating the possibility of life after death, deconstructing popular Christmas carols, or just calling bullsh*t on Donald Trump, Jillette does not fail to shock and delight his readers. And as ever, underneath these rollicking rants lie a deeply personal philosophy and a generous spirit, which find joy and meaning in family, and peace in the simple beauty of the everyday. *Every Day Is an Atheist Holiday!* is a hysterical affirmation of life's magic from one of the most distinctly perceptive and provocative humorists writing today.

Humble Pi Matt Parker 2019-03-07 We would all be better off if everyone saw mathematics as a practical ally. Sadly, most of us fear maths and seek to avoid it. This is because mathematics doesn't have

good 'people skills' - it never hesitates to bluntly point out when we are wrong. But it is only trying to help! Mathematics is a friend which can fill the gaps in what our brains can do naturally. Luckily, even though we don't like sharing our own mistakes, we love to read about what happens when maths errors make the everyday go horribly wrong. Matt Parker explores and explains near misses and mishaps with planes, bridges, the internet and big data as a way of showing us not only how important maths is, but how we can use it to our advantage. This comedy of errors is a brilliantly told series of disaster stories with a happy ending.

Little Michigan Kathryn Houghton 2018-05-01
Michigan’s small towns have great stories. Little Michigan presents 100 towns with populations under 600. From the state’s long mining history to its Civil War heritage, each community is charming and unique. With full-color photographs, fun facts, and fascinating details about every locale, it’s almost as if you’re walking down Main Street, waving hello to folks who know all of their neighbors. Plus,

these small towns have their share of surprises. Do you know which crime scene inspired the famous film *Anatomy of a Murder* or where you will find the infamous “Naughty Cow” statue—and how it got its nickname? The locations featured in this book range from quaint to historic, and they wonderfully represent the Great Lakes State. *Little Michigan*, written by lifelong resident Kathryn Houghton, is for anyone who grew up in a small town and for everyone who takes pride in being called a Michigander. They may be small towns, but they have huge character!

Hilarity Ensues Tucker Max 2012-02-07 The New York Times bestselling author of *I Hope They Serve Beer in Hell* and *Assholes Finish First* delivers a new collection of thirty 100% true, 100% exclusive stories of comically perverse excess.

Another installment in Tucker Max's series of stories about his drunken debauchery and ridiculous antics. What began as a simple sentence on an obscure website, "My name is Tucker Max, and I am an asshole," and developed into two infamously genre-defining books, *I Hope They Serve Beer In Hell* and *Assholes Finish First*, ends here. But as you should expect from Tucker by now, he is going out with a bang—literally and figuratively. In this book, you'll learn: * How to live and work in Cancun, while still enrolled in Law School * Why Halloween is really awesome * How to subtly torture a highstrung roommate until he explodes with furious anger over a misplaced condiment * What really happened when a dirty pageant girl tried to sue Tucker because he told the truth * Why you should never accept a homemade treat from a hippie with a van As we've come to learn from Tucker, assholes do finish first...but everything

comes with a price.

Conspiracies Andy Thomas 2019-12-10 At any time in our history, you will find significant and seemingly indisputable events occurring, the kind that can change the course of our lives -- the assassination of President John F. Kennedy, the terrorist attacks of 9/11. Yet for every one of them, somebody, somewhere will loudly dispute the 'official' account, doubting that the truth has been told. In today's environment, with trust in authorities at an all-time low, conspiracy theories have found a new currency, and websites and social networking ensure they receive a wider and more rapid spread than ever before. But how do we separate truth from imagination? Was Princess Diana murdered, as many people think, despite all the official denials? Did NASA really go to the Moon, when anomalies in the photographic record suggest otherwise? Could 9/11 really have been set

up by agencies within the USA itself? The Kindle edition includes an update on all the conspiracy theories that have emerged in the wake of the Coronavirus pandemic. The author opens the conspiracy casebook by examining the mindset of those who believe in conspiracies, and considers whether the dismissive attitude towards them has been fair. Part Two looks into history to establish that conspiracies do occur, credibility should therefore be given to belief in some of the alleged plots and cover-ups of today. This leads into a well-argued examination of some of the most popular conspiracies of our times, including theories over assassinations, UFO cover-ups, and widely voiced concerns over 9/11 and the 'New World Order'. Part Three draws the conclusion that while not all conspiracy theories can be proven, they do at least draw attention to paths not to take, and can be valuable in helping to create a better world where

new trust and hope can be forged. Are we living in a world of control, of oppression, of habitual deception? Is this really how things are, or simply

human nature massively distorted through a dark lens? The truth probably lies somewhere in the middle.
