this vivid, contemporary translation, Victor Mair captures the quintessential life and spirit of Chuang Tzu while remaining faithful to the original text. Beyond the Troubled Water of Shifei Lin Ma 2019-05-21 Offers the first focused study of the shifei debates of the Warring States period in ancient China and challenges the imposition of Western conceptual categories onto these debates. In recent decades, a growing concern in studies in Chinese intellectual history is that Chinese classics have been forced into systems of classification prevalent in Western philosophy and thus imperceptibly transformed into examples that echo Western philosophy. Lin Ma and Jaap van Brakel offer a methodology to counter this approach,

and illustrate their method by carrying out a transcultural inquiry into the complexities involved in understanding shi and fei and their cognate phrases in the Warring States texts, the Zhuangzi in particular. The authors discuss important features of Zhuangzi's stance with regard to language-meaning, knowledge-doubt, questioning, equalizing, and his well-known deconstruction of the discourse in ancient China on shifei. Ma and van Brakel suggest that shi and fei apply to both descriptive and prescriptive languages and do not presuppose any fact/value dichotomy, and thus cannot be translated as either true/false or right/wrong. Instead, shi and fei can be grasped in terms of a pre-philosophical

of fitting. Ma and van Brakel also highlight Zhuangzi's idea of "walking-two-roads" as the most significant component of his stance. In addition, they argue that all of Zhuangzi's positive recommendations are presented in a language whose meaning is not fixed and that every stance he is committed to remains subject to fundamental questioning as a way of life. Lin Ma is Associate Editor of *Philosophers* at the School of Philosophy at Renmin University of China. She is the author of several books, including *Heidegger on East-West Dialogue: Anticipating the Event*. Jaap van Brakel is Professor Emeritus in the Higher Institute of Philosophy of the University of Leuven in Belgium. He is the author of *Philosophy of Chemistry: Between the*

Manifest and the Scientific Image. Together, Ma and van Brakel are coauthors of *Fundamentals of Comparative and Intercultural Philosophy*.

Zhuangzi's Critique of the Confucians Kim-chong Chong 2016-10-24 Looks at the Daoist Zhuangzi's critique of Confucianism. The Daoist Zhuangzi has often been read as a mystical philosopher. But there is another tradition, beginning with the Han dynasty historian Sima Qian, which sees him as a critic of the Confucians. Kim-chong Chong analyzes the Inner Chapters of the Zhuangzi, demonstrating how Zhuangzi criticized the pre-Qin Confucians through metaphorical inversion and parody. This is indicated by the subtitle, "Blinded by the Human," which is an inversion of

Confucian philosopher Xunzi's remark that Zhuangzi was "blinded by heaven and did not know the human." Chong compares Zhuangzi's Daoist thought to Confucianism, as exemplified by Confucius, Mencius, and Xunzi. By analyzing and comparing the different implications of concepts such as "heaven," "heart-mind," and "transformation," Chong shows how Zhuangzi can be said to provide the resources for a more pluralistic and liberal philosophy than the Confucians.

Zhuangzi: The Essential Writings with Selections from Traditional Commentaries Zhuangzi 2009-09-11 This volume is a translation of over two-thirds of the classic Daoist text Zhuangzi (Chuang Tzu), including the complete Inner Chapters and extensive selections

from the Outer and Miscellaneous Chapters, plus judicious selections from 2000 years of traditional Chinese commentaries, which provide the reader access to the text as well as to its reception and interpretation. Brief biographies of the commentators, a bibliography, a glossary, and an index are also included.

friendly, intimate companion speaking directly to the reader in a contemporary voice about matters relevant to our everyday lives. *Wandering at Ease in the Zhuangzi* Roger T. Ames 2016-01-01 Chinese philosophy specialists examine the Zhuangzi, a third century B.C.E. Daoist classic, in this collection of interpretive essays. The Zhuangzi is a celebration of human creativity -- its language is lucid and opaque; its images are darkly brilliant; its ideas are playful. Without question, it is one of the most challenging achievements of human literary culture. Thematically, the Zhuangzi offers diverse insights into how to develop an appropriate and productive attitude to one's life in this world. Resourced over

the centuries by Chinese artists and intellectuals alike, this text has provoked a commentarial tradition that rivals any masterpiece of world literature. *Wandering at Ease in the Zhuangzi* continues the interpretive tradition as Western scholars shed light on selected passages from the difficult text, offering the needed mediation between available translations of the Zhuangzi and the reader's process of understanding. Taken as a whole, this anthology is a primer on how to read the Zhuangzi. *Zhuangzi: Basic Writings* Zhuangzi 2003-04-16 Only by inhabiting Dao (the Way of Nature) and dwelling in its unity can humankind achieve true happiness and freedom, in both life and death. This is Daoist philosophy.

central tenet, espoused by the person—or group of people—known as Zhuangzi (369?–286? BCE) in a text by the same name. To be free, individuals must discard rigid distinctions between right and wrong, and follow a course of action not motivated by gain or striving. When one ceases to judge events as good or bad, man-made suffering disappears, and natural suffering is embraced as part of life. Zhuangzi elucidates this mystical philosophy through humor, parable, and anecdote, using non sequitur and even nonsense to illuminate truths beyond the boundaries of ordinary logic. Boldly imaginative and inventively written, the Zhuangzi floats free of its historical period and society, addressing the spiritual nourishment of all

One of the most justly celebrated texts of the Chinese tradition, the Zhuangzi is read by thousands of English-language scholars each year, yet, until now, only in the Wade-Giles romanization. adaptation of the profound and humorous Daoist writings of Zhuangzi, some of the most popular and influential in the history of Asian philosophy and culture. The Way of Nature brings together all of Tsai's beguiling cartoon illustrations of the Zhuangzi, which takes its name from its author. The result is a uniquely accessible and entertaining adaptation of a pillar of classical Daoism, which has deeply influenced Chinese poetry, landscape painting, martial arts, and Chan (Zen) Buddhism. Irreverent and inspiring, The Way of Nature presents the memorable characters, fables, and thought experiments of Zhuangzi like no other edition, challenging readers to dig beneath conventional assumptions about self, society, and nature, and

pointing to a more natural way of life. Through practical insights and far-reaching arguments, Zhuangzi shows why returning to the spontaneity of nature is the only sane response to a world of conflict. A marvelous introduction to a timeless classic, this book also features an illuminating foreword by Edward Slingerland. In addition, Zhuangzi's original Chinese text is artfully presented in narrow sidebars on each page, enriching the book for readers and students of Chinese without distracting from the self-contained English-language cartoons. The text is skillfully translated by Brian Bruya, who also provides an introduction.

and Its Virtue," has probably had a greater influence on Asian thought than any other single book. It is also one of the true classics of world literature. Traditionally attributed to the near-legendary "Old Master," Lao Tzu, the Tao Teh Ching teaches that the qualities of the enlightened sage or ideal ruler are identical with those of the perfected individual. Today, Lao Tzu's words are as useful in mastering the arts of leadership in business and politics as they are in developing a sense of balance and harmony in everyday life. To follow the Tao or Way of all things and realize their true nature is to embody humility, spontaneity, and generosity.

Genuine Pretending Hans-Georg Moeller 2017-10-17

Genuine Pretending is an innovative and comprehensive new reading of the Zhuangzi that highlights the critical and therapeutic functions of satire and humor. Hans-Georg Moeller and Paul J. D'Ambrosio show how this Daoist classic, contrary to contemporary philosophical readings, distances itself from the pursuit of authenticity and subverts the dominant Confucianism of its time through satirical allegories and ironical reflections. With humor and parody, the Zhuangzi

exposes the Confucian demand to commit to socially constructed norms as pretense and hypocrisy. The Confucian pursuit of sincerity establishes exemplary models that one is supposed to emulate. In contrast, the Zhuangzi parodies such venerated representations of wisdom and deconstructs the very notion of sagehood. Instead, it urges a playful, skillful, and unattached engagement with socially mandated duties and obligations. The Zhuangzi expounds the Daoist art of what Moeller and D'Ambrosio call "genuine pretending": the paradoxical skill of not only surviving but thriving by enacting social roles without being tricked into submitting to them or letting them define one's identity. A provocative re-reading of

a Chinese philosophical classic, *Genuine Pretending* also suggests the value of a Daoist outlook today as a way of seeking existential sanity in an age of mass media's paradoxical quest for originality. **Zhuangzi's Critique of the Confucians** Kim-chong Chong 2016-10-24 Looks at the Daoist Zhuangzi's critique of Confucianism. The Daoist Zhuangzi has often been read as a mystical philosopher. But there is another tradition, beginning with the Han dynasty historian Sima Qian, which sees him as a critic of the Confucians. Kim-chong Chong analyzes the Inner Chapters of the Zhuangzi, demonstrating how Zhuangzi criticized the pre-Qin Confucians through metaphorical inversion and parody. This is indicated by the subtitle, "Blinded by the Human," which is an

inversion of the Confucian philosopher Xunzi's remark that Zhuangzi was "blinded by heaven and did not know the human." Chong compares Zhuangzi's Daoist thought to Confucianism, as exemplified by Confucius, Mencius, and Xunzi. By analyzing and comparing the different implications of concepts such as "heaven," "heart-mind," and "transformation," Chong shows how Zhuangzi can be said to provide the resources for a more pluralistic and liberal philosophy than the Confucians. Kim-chong Chong is Professor Emeritus at the Hong Kong University of Science and Technology. He taught at the National University of Singapore from 1980–2003 and is the author of *Early Confucian Ethics: Concepts and Arguments. The Way of Chuang-tzu*

Basic Writings Chuang-tzu 1996 Chuang Tzu (369?-286? BC) was a leading Taoist philosopher. Using parable and anecdote, allegory and paradox, he set forth in this book the early ideas of what was to become the Taoist school. This collection includes the seven "inner chapters," three of the "outer chapters," and one of the "miscellaneous chapters."

Zhuangzi: The Essential Writings Zhuangzi 2009-03-15 Ideal for students and scholars alike, this edition of Zhuangzi (Chuang Tzu) includes the complete Inner Chapters, extensive selections from the Outer and Miscellaneous Chapters, and judicious selections

from two thousand years of traditional Chinese commentaries, which provide the reader access to the text as well as to its reception and interpretation. A glossary, brief biographies of the commentators, a bibliography, and an index are also included.

The Philosophy of Life Guying Chen 2016-01-18 The Philosophy of Life offers a detailed analysis and a unique philosophical, personal and political interpretation of the Zhuangzi. Chen takes Nietzsche's perspectivism as an inspiration to explore Zhuangzi's philosophy of life – in terms of self-cultivation, aesthetics and epistemology.

and the cornerstone of Daoist thought. The earliest and most influential commentary on the Zhuangzi is that of Guo Xiang (265-312), who also edited the text into the thirty-three-chapter version known ever since. Guo's commentary enriches readings of the Zhuangzi, offering keen insights into the meaning and significance of its pithy but often ambiguous aphorisms, narratives, and parables. Richard John Lynn's new translation of the Zhuangzi is the first to follow Guo's commentary in its interpretive choices. Unlike any previous translation into any language, its guiding principle is how Guo read the text; Lynn renders the Zhuangzi in terms of Guo's understanding. This approach allows for the full integration of the

text of the Zhuangzi with Guo's commentary. The book also features a translation of Guo's complete interlinear commentary and is annotated throughout. A critical introduction includes a detailed account of Guo's life and times as well as analysis of his essential contributions to the arcane learning (xuanxue) of the fourth century and the development of Chinese philosophy. Lynn sheds new light on how the Daoist classic, which has often been seen as a timeless book of wisdom, is situated in its historical context, while also considering it as a guide to personal cultivation and self-realization.

Confucius, Lao Tzu, and the Buddha, ranks among the most influential thinkers in the development of East Asian thought. His literary style is humorous and entertaining, yet the philosophical content is extraordinarily subtle and profound. This book introduces key topics in early Daoist philosophy. Drawing on several issues and methods in Western philosophy, from analytical philosophy to semiotics and hermeneutics, the author throws new light on the ancient Zhuangzi text. Engaging Daoism and contemporary Western philosophical logic, and drawing on new developments in our understanding of early Chinese culture, Coutinho challenges the interpretation of Zhuangzi as either a skeptic or a relativist, and instead seeks to

explore his philosophy as emphasizing the ineradicable vagueness of language, thought and reality. This new interpretation of the Zhuangzi offers an important development in the understanding of Daoist philosophy, describing a world in flux in which things themselves are vague and inconsistent, and tries to show us a Way (a Dao) to negotiate through the shadows of a "chaotic" world.

Dao Companion to the Philosophy of the Zhuangzi Kim-chong Chong

2022-09-03 This comprehensive collection brings out the rich and deep philosophical resources of the Zhuangzi. It covers textual, linguistic, hermeneutical, ethical, social/political and philosophical issues, with the latter including epistemological, metaphysical, phenomenological and cross-cultural (Chinese and Western) aspects. The volume starts out with the textual history of the Zhuangzi, and then examines how language is used in the text. It explores this

unique characteristic of the Zhuangzi, in terms of its metaphorical forms, its use of humour in deriding and parodying the Confucians, and paradoxically making Confucius the spokesman for Zhuangzi's own point of view. The volume discusses questions such as: Why does Zhuangzi use language in this way, and how does it work? Why does he not use straightforward propositional language? Why is language said to be inadequate to capture the "dao" and what is the nature of this dao? The volume puts Zhuangzi in the philosophical context of his times, and discusses how he relates to other philosophers such as Laozi, Xunzi, and the Logicians.

Daoist writings into conversation with contemporary contemplative studies. In *The Contemplative Foundations of Classical Daoism*, Harold D. Roth explores the origins and nature of the Daoist tradition, arguing that its creators and innovators were not abstract philosophers but, rather, mystics engaged in self-exploration and self-cultivation, which in turn provided the insights embodied in such famed works as the *Daodejing* and *Zhuangzi*. In this compilation of essays and chapters representing nearly thirty years of scholarship, Roth examines the historical and intellectual origins of Daoism and demonstrates how this distinctive philosophy emerged directly from practices that were essentially

contemplative in nature. In the first part of the book, Roth applies text-critical methods to derive the hidden contemplative dimensions of classical Daoism. In the second part, he applies a "contemplative hermeneutic" to explore the relationship between contemplative practices and classical Daoist philosophy and, in so doing, brings early Daoist writings into conversation with contemporary contemplative studies. To this he adds an introduction in which he reflects on the arc and influence on the field of early Chinese thought of this rich vein of scholarship and an afterword in which he applies both interpretive methods to the vexing question of the authorship of the *Inner Chapters* of the *Zhuangzi*. In bold and startling prose, David Hinton's translation captures the "zany texture and philosophical abandon" of the original. The Inner Chapters fantastical passages - in which even birds and trees teach us what they know - offer up a wild menagerie of characters, freewheeling play with language, and surreal humor. And interwoven with Chuang Tzu's sharp instruction on the Tao are short-short stories that are often rough and ribald, rich with satire and paradox." on Daoism* Zhuangzi 2008
Throughout the years
there have been several
editions of Zhuang Zi's
book with significant
differences in certain

parts of the text. Not
every word in the book
came from Zhuang Zi's
pen. Contributions were
made by his disciples
and there have been many
changes to the original
text: errors in hand
copying the text, in
mistaking notations for
text, and in outright
forgery throughout
centuries. Chen Guying's
1976 edition of the
book, an eclectic study
of all the editions that
identifies probable
forgeries, is used as
the text reference in
the present translation.

establish an objectively demonstrable chronology and determine the philosophical affiliations among the various chapters. This major advance in Zhuangzi scholarship furnishes indispensable data for all students of the great Daoist text. In a lengthy afterword, Liu compares his conclusions with those of A. C. Graham and addresses the relationship between the Zhuangzi and the Laozi. Liu Xiaogan is Professor of Philosophy at the Chinese University of Hong Kong.

Chuang-Tzu for Spiritual

Transformation Robert Elliott Allinson
1989-01-01 This book offers a fundamentally new interpretation of the philosophy of the Chuang-Tzu. It is the first full-length work

of its kind which argues that a deep level cognitive structure exists beneath an otherwise random collection of literary anecdotes, cryptic sayings, and dark allusions. The author carefully analyzes myths, legends, monstrous characters, paradoxes, parables and linguistic puzzles as strategically placed techniques for systematically tapping and channeling the spiritual dimensions of the mind. Allinson takes issue with commentators who have treated the Chuang-Tzu as a minor foray into relativism. Chapter titles are re-translated, textual fragments are relocated, and inauthentic, outer miscellaneous chapters are carefully separated from the transformatory message of the authentic, inner chapters. inner chapters is shown to be a building block to the next so that they can only be understood as forming a developmental sequence. In the end, the reader

is presented with a clear, consistent and coherent view of the Chuang-Tzu that is more in accord with its stature as a major philosophical work.
