To do so Loch — former soldier, former prisoner, current fugitive — must assemble a crack team of magical misfits that includes a cynical illusionist, a shapeshifting unicorn, a repentant death priestess, a talking magical warhammer, and a lad with seemingly no skills to help her break into the floating fortress of Heaven's Spire and the vault that holds her family's treasure — all while eluding the unrelenting pursuit of Justicar Pyvic, whose only mission is to see the law upheld. *Orconomics* J. Zachary Pike 2014-11-23 Professional heroes kill and loot deadly monsters every day, but Gorm Ingerson's latest quest will be anything but business as usual. The adventuring industry drives the economy of Arth, a world much like our own but with more magic and fewer vowels. Monsters' hoards are claimed, bought by corporate interests, and sold off to plunder funds long before the Heroes' Guild actually kills the beasts. Of course, that's a terrible arrangement for the Shadowkin; Orcs, Goblins, Kobolds, and their ilk must apply for to become Noncombatant Paper Carriers (or NPCs) to avoid being killed and looted by heroes. When Gorm Ingerson, a Dwarven ex-hero with a checkered past, stands up for an undocumented Goblin, he inadvertently singles himself out for recruitment by a prophet of the mad goddess to undertake a suicidal quest. But there's more to Gorm's new job than an insane prophecy: powerful corporations and governments have shown an unusual interest in the quest. If his party of eccentric misfits can stop fighting each other long enough to recover the Elven Marbles, Gorm might be able to turn a bad deal into a golden opportunity.

**The Uninhabitable Earth** David Wallace-Wells 2019-02-19 \*\*SUNDAY TIMES AND THE NEW YORK TIMES BESTSELLER\*\* 'An epoch-defining book' Matt Haig 'If you read just one work of non-fiction this year, it should probably be this' David Sexton, Evening Standard Selected as a Book of the Year 2019 by the Sunday Times, Spectator and New Statesman A Waterstones Paperback of the Year and shortlisted for the Foyles Book of the Year 2019 Longlisted for the PEN / E.O. Wilson Literary Science Writing Award It is worse, much worse, than you think. The slowness of climate change is a fairy tale, perhaps as pernicious as

the one that says it isn't happening at all, and if your anxiety about it is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible, even within the lifetime of a teenager today. Over the past decades, the term "Anthropocene" has climbed into the popular imagination - a name given to the geologic era we live in now, one defined by human intervention in the life of the planet. But however sanguine you might be about the proposition that we have ravaged the natural world, which we surely have, it is another thing entirely to consider the possibility that we have only provoked it, engineering first in ignorance and then in denial a climate system that will now go to war with us for many centuries, perhaps until it destroys us. In the meantime, it will remake us, transforming every aspect of the way we live—the planet no longer nurturing a dream of abundance, but a living nightmare.

**Disenchanted** Robert Kroese 2013-01-15 King Boric the Implacable knows death comes to all great warriors. He just didn't expect it to be so damn fickle. Felled by an assassin's blade, he should be spending eternity carousing in the Hall of Avandoor. Instead, his spirit is bound to his decaying body by the enchanted sword of Brakslaagt. And unless he can hunt down the mysterious Lord Brand, who gave him the weapon so long ago, he is cursed to wander the earth forever as an undead wraith. So begins Boric's extraordinary journey across the Six Kingdoms of Dis as a walking corpse who wants nothing more than to be disenchanted and left in peace. His is not an easy quest: along the way he is burned, riddled with arrows, and nearly blown to bits. But when he finally comes face-to-face with Lord Brand, Boric will discover that nothing - in life, in death, or in between - is exactly what it seems."

*Master and Apprentice (Star Wars)* Claudia Gray 2019-04-18 THE NEW YORK TIMES BESTSELLER An unexpected offer threatens the bond between Qui-Gon Jinn and Obi-Wan Kenobi as the two Jedi navigate a dangerous new planet and an uncertain future. A Jedi must be a fearless warrior, a guardian of justice, and a scholar in the ways of the Force. But perhaps a Jedi's most essential duty is to pass on what they have learned. Master Yoda trained Dooku; Dooku trained Qui-Gon Jinn; and now Qui-Gon has a Padawan of his own. But while Qui-Gon has faced all manner of threats and danger as a Jedi, nothing has ever scared him like the thought of failing his apprentice. Obi-Wan Kenobi has deep respect for his Master, but struggles to understand him. Why must Qui-Gon so often disregard the laws that bind the Jedi? Why is Qui-Gon drawn to ancient Jedi prophecies instead of more practical concerns? And why wasn't Obi-Wan told that Qui-Gon is considering an invitation to join the Jedi Council—knowing it would mean the end of their partnership? The simple answer scares him: Obi-Wan has failed his Master. When Jedi Rael Averross, another former student of Dooku, requests their assistance with a political dispute, Jinn and Kenobi travel to the Royal Court of Pijal for what may be their final mission together. What should be a simple assignment quickly becomes clouded by deceit, and by visions of violent disaster that take hold in Qui-Gon's mind. As Qui-Gon's faith in prophecy grows, Obi-Wan's faith in him is tested—just as a threat surfaces which will demand that Master and Apprentice come together as never before, or be divided forever.

**The Secret War with Iran** Ronen Bergman 2008-09-09 For twenty-six years, Iran has waged an international terrorist war while the intelligence services of the West, led by Mossad and the CIA, have waged a relentless, mostly clandestine counter-jihad in return. Though Iran has become a quietly looming threat, little has been revealed about this intelligence-based war. Now, Ronen Bergman, Israel's leading reporter and analyst of intelligence affairs, has written a full account of this secret war. He connected the dots of the long history of Iranian backed terrorist attacks, and revealed for the first time many classified operations against the Iranian terrorist network, including details about collaborations between Israel's Mossad and the CIA and FBI; thrilling Mossad operations, the successful recruitment of top insiders of Iranian intelligence, who have disclosed a wealth of information about Iran's nuclear program as well as its terrorist activities; and the use of ultra-sophisticated surveillance equipment to penetrate and damage Iranian targets. From the Iranian proxy Hizbollah's planning of terrorists attacks from apartments in New York City, to Iran's training of an army of work Iraqi insurgents in the techniques of suicide bombing and the making of improvised explosive devises, he showed Iran has steadily waged war against the West.

**The 48 Laws Of Power** Robert Greene 2010-09-03 THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text

is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

(From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, *Volume Three*, was wack. People set higher standards for me, and I love it. *The Last Wish* Andrzej Sapkowski 2014-05-21 Geralt de Riv, a witcher, uses his vast sorcerous powers to hunt down the monsters that threaten the world, but he soon discovers that not every monstrous-looking creature is evil, and not everything beautiful is good.

*Mass Effect* Mac Walters 2010-01-01 Dr. Kiara T'Soni embarks on a dangerous mission to solve the mystery of her companion Commander Shepard's disappearance.

*American Enchantment* Michelle Sizemore 2017-11 The demise of the monarchy and the bodily absence of a King caused a representational crisis in the early republic, forcing the American people to reconstruct the social symbolic order in a new and unfamiliar way. Social historians have routinely understood the Revolution and the early republic as projects dedicated to and productive of reason, with "the people" as an orderly and sensible collective at odds with the volatile and unthinking crowd. *American Enchantment* rejects this traditionally held vision of a rational public sphere, arguing that early Americans dealt with the post-monarchical crisis by engaging in "civil mysticism," not systematic discussion and debate. By evaluating a wide range of social and political rituals and literary and cultural discourses, Sizemore shows how "enchantment" becomes a vital mode of enacting the people after the demise of traditional monarchical forms. In works by Charles Brockden Brown, Washington Irving, Catharine Sedgwick, and Nathaniel Hawthorne - as well as in Delaware oral histories, accounts of George Washington's inauguration, and Methodist conversion narratives - enchantment is an experience uniquely capable of producing new forms of popular power and social affiliation. Recognizing the role of enchantment inconstituting the people overturns some of the most common-sense assumptions in the post-revolutionary world: above all, that the people are not simply a flesh-and-blood substance, but also a mystical force.

**N-4 Down** Mark Piesing 2021-08-31 "GRIPPING. ... One of the greatest polar rescue efforts ever mounted." —Wall Street Journal The riveting true story of the largest polar rescue mission in history: the desperate race to find the survivors of the glamorous Arctic airship *Italia*, which crashed near the North Pole in 1928. Triumphantly returning from the North Pole on May 24, 1928, the world-famous exploring airship *Italia*—code-named N-4—was struck by a terrible storm and crashed somewhere over the Arctic ice, triggering the largest polar rescue mission in history. Helping lead the search was Roald Amundsen, the poles' greatest explorer, who himself soon went missing in the frozen wastes. Amundsen's body has never been found, the last victim of one of the Arctic's most enduring mysteries . . . During the Roaring Twenties, zeppelin travel embodied the exuberant spirit of the age. Germany's luxurious Graf Zeppelin would run passenger service from Germany to Brazil; Britain's Imperial Airship was launched to connect an empire; in America, the iconic spire of the rising Empire State Building was designed as a docking tower for airships. But the novel mode of transport offered something else, too: a new frontier of exploration. Whereas previous Arctic and Antarctic explorers had subjected themselves to horrific—often deadly—conditions in their attempts to reach uncharted lands, airships held out the possibility of speedily soaring over the hazards. In 1926, the famed Norwegian explorer Roald Amundsen—the first man to reach the South Pole—partnered with the Italian airship designer General Umberto Nobile to pioneer flight over the North Pole. As Mark Piesing uncovers in this masterful account, while that mission was thought of as a great success, it was in fact riddled with near disasters and political pitfalls. In May 1928, his relationship with Amundsen corroded beyond the point of collaboration, Nobile, his dog, and a crew of fourteen Italians, one Swede, and one Czech, set off on their own in the airship *Italia* to discover new lands in the Arctic Circle and to become the first airship to land men on the pole. But near the North Pole they hit a terrible storm and crashed onto the ice. Six crew members were never seen again; the injured (including Nobile) took

refuge on ice flows, unprepared for the wretched conditions and with little hope for survival. Coincidentally, in Oslo a gathering of famous Arctic explorers had assembled for a celebration of the first successful flight from Alaska to Norway. Hearing of the accident, Amundsen set off on his own desperate attempt to find Nobile and his men. As the weeks passed and the largest international polar rescue expedition mobilized, the survivors engaged in a last-ditch struggle against weather, polar bears, and despair. When they were spotted at last, the search plane landed—but the pilot announced that there was room for only one passenger. . . . Braiding together the gripping accounts of the survivors and their heroic rescuers, *N-4 Down* tells the unforgettable true story of what happened when the glamour and restless daring of the zeppelin age collided with the harsh reality of earth's extremes.

The Israel Lobby and US Foreign Policy John J Mearsheimer 2008-06-26 Does America's pro-Israel lobby wield inappropriate control over US foreign policy? This book has created a storm of controversy by bringing out into the open America's relationship with the Israel lobby: a loose coalition of individuals and organizations that actively work to shape foreign policy in a way that is profoundly damaging both to the United

States and Israel itself. Israel is an important, valued American ally, yet Mearsheimer and Walt show that, by encouraging unconditional US financial and diplomatic support for Israel and promoting the use of its power to remake the Middle East, the lobby has jeopardized America's and Israel's long-term security and put other countries - including Britain - at risk.

*City of Stairs* Robert Jackson Bennett 2014-09-09 An atmospheric and intrigue-filled novel of dead gods, buried histories, and a mysterious, protean city—from one of America's most acclaimed young fantasy writers. The city of Bulikov once wielded the powers of the gods to conquer the world, enslaving and brutalizing millions—until its divine

protectors were killed. Now Bulikov has become just another colonial outpost of the world's new geopolitical power, but the surreal landscape of the city itself—first shaped, now shattered, by the thousands of miracles its guardians once worked upon it—stands as a constant, haunting reminder of its former supremacy. Into this broken city steps Shara Thivani. Officially, the unassuming young woman is just another

junior diplomat sent by Bulikov's oppressors. Unofficially, she is one of her country's most accomplished spies, dispatched to catch a murderer. But as Shara pursues the killer, she starts to suspect that the beings who ruled this terrible place may not be as dead as they seem—and that Bulikov's cruel reign may not yet be over.
